

Cutt & Murphy with Windcorp

Windcorp Brass Band started off its season in early October with an intensive rehearsal weekend under the direction of Gary Cutt. The conductor of Foden's Band has visited the band before and there has developed a good relationship between him and the band. The highlight so far was the win at Grenland International Brass Band Festival last year.

This time the main focus for the band is to retrieve the Swedish National title to Gothenburg in November, and Gary then has the opportunity to add a Swedish National title to his already impressive CV. When he now returns to the band he also brings Lucy Murphy from Williams Fairey Band to fill a vacancy on flugel horn.

The set test piece will be Gothic Dances by Alan Fernie, who will be present as the Guest of honour at the championships. Add to this an exciting own choice item that really suits the band and you realise that the pre-contest concert at the weekend before the Swedish Nationals will be something not to miss.
